

Anjur Javed

FRONT-END DESIGNER & WEB DEVELOPER · FOUNDER, JAVED IT SOLUTION

+880 1616-901396 | anjur@javeditsolution.com | javeditsolution.com | Mirpur-1, Dhaka, Bangladesh

PROFESSIONAL PROFILE

A results-driven **Front-End Designer & Web Developer** and the **Founder of Javed IT Solution**, with **4+ years** of hands-on experience building international-standard websites, applications and complete digital systems. I turn business goals into pixel-perfect, cross-device responsive interfaces and dependable back-end logic — from custom websites and e-commerce to SEO, AI automation, data and video. Since 2020 I have delivered **50+ projects** across **17+ digital services** for clients in Bangladesh and abroad, earning a **4.9-star** client rating by pairing design vision with real technical depth.

PROFESSIONAL EXPERIENCE

Founder & Lead Front-End Designer / Developer

2022 — Present

Javed IT Solution · Mirpur-1, Dhaka (Serving clients in Bangladesh & worldwide)

- Founded and run a full-service digital agency delivering 50+ international-standard websites and applications — from concept and wireframe to launch and maintenance.
- Design and develop custom, pixel-perfect, mobile-first interfaces with HTML5, CSS3, JavaScript, React, Tailwind and Bootstrap — no template copy-paste.
- Build back-end logic and integrations with Laravel, PHP, MySQL and REST APIs; ship secure, fast, SEO-ready code.
- Implement on-page and technical SEO (Schema.org, Core Web Vitals, Search Console); multiple client sites rank in Google's top results.
- Develop e-commerce platforms and business systems with documented sales growth for clients post-launch.
- Deliver AI automation and chatbots (OpenAI, Claude, Gemini, n8n), data analysis dashboards (Power BI, Python), and motion-graphics video (Remotion, After Effects).
- Create brand identities — logos, banners, brochures and ads — in Adobe Photoshop & Illustrator.
- Provide end-to-end client support: requirements, build, launch, training and long-term maintenance.

Freelance Web & Graphic Designer

2020 — 2022

Independent · Remote & local clients

- Designed and developed websites, logos and marketing collateral for local businesses and startups.
- Converted PSD designs into clean, maintainable, cross-browser HTML/CSS with responsive layouts.
- Built interactive UI components using JavaScript, jQuery and AJAX; managed the full brief → design → build → handover workflow.
